## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/10/2008 has been entered.

### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 1/10/2008 was filed after the mailing date of the Notice of Allowance on 9/19/2007. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***Specification***

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: Claim 31 recites the limitation "machine-readable medium", which cannot be found in the specification.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 31 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

As stated above, the claim terminology "machine-readable medium" is not recited in the specification, therefore since the specification recites both a computer-readable medium (memory devices) and a transmission medium (transmission of data over a signal) a determination cannot be made which medium the claim is referencing.

The examiner notes that both mediums are non-statutory under 35 USC 101. A signal claim represents a transmission medium and is non-statutory subject matter (see MPEP 2106). Further data on a disc that is not being executed by a computer has also been deemed non-statutory subject matter (MPEP 2106). Appropriate correction is required.

#### ***Allowable Subject Matter***

Claims 2-10, 12-14, 17-19, 22, 23 and 29-30 allowed.
